

CPRE Norfolk Award Winners 2011

Restorations of Private Homes

1. **The Restoration of and Extension to Friary Cottage, Burnham Norton;** sensitive improvements to a neglected Grade II listed building, using traditional local materials.
2. **The Restoration and Conversion of The Old Coach House, Yaxham;** a modern conversion of an underused building to provide an airy, open plan family home.
3. **The Restoration and Conversion of Seabank Cottage, Cley-next-the-Sea;** a creative restoration of a dilapidated home, with an emphasis placed on the use of reclaimed materials.

Exciting New Architecture

4. **Reepham College;** a modern 6th form centre designed to encourage attainment through inspiring surroundings. The new building features high quality acoustic performance, plentiful natural lighting and low energy use.
5. **The Haven, Horning;** a landmark building, located on a prominent position on the River Bure at Horning, and which maximises the use of renewable technologies and low energy design.
6. **Curve House, Edgefield;** a contemporary home situated in the Norfolk countryside, built with sympathetic use of Norfolk materials.
7. **Lakeside, Brundall Gardens;** a striking new home set in landscaped gardens. The gardens surround a large lake which formed part of an historic arboretum.

Improving the Landscape and Widening Understanding

8. **The Improvements to Burrfield Park, Tasburgh;** a community project which has transformed a scruffy and underused piece of land into an area for village use and as a wildlife habitat.
9. **Swafas' Swale Community Orchard, Swaffham;** a community project to create an orchard on neglected land and which has involved over 100 volunteers.

10. **The Boudicca Way Project,** a scheme by local B&B owner Steven Falvey to raise awareness and use of a neglected long-distance footpath and its surrounding countryside in South Norfolk.
11. **The Renovation of Plumstead Pond and Surrounding Area;** the transformation of a neglected pond to provide a haven for wildlife and a village amenity.

Restoration and Renewal

12. **The Restoration of The Maltings, Oulton;** the conversion of a redundant, Grade II listed cart shed on the National Trust estate at Blickling into an eco-friendly modern office.
13. **The Restoration of The Vineries, Holkham;** the last phase of a 12 year project to restore the Grade I listed Victorian vineries at Holkham Hall, demonstrating exceptionally high levels of craftsmanship.
14. **The Restoration of St Michael's & All Angels' Church, Reepham;** a project to improve the interior spaces of a medieval church, making them more suitable for modern use, whilst ensuring the historic fabric of the building was respected.

A Selection in Summary

15. **The Development of Gardens and Playgrounds at Thurton CE Primary School;** a design heavily influenced by the school's pupils to enhance their outdoor environment, whilst referencing the local landscape.
16. **Johnson Close,** a creative scheme providing attractive and affordable houses on brownfield land in Costessey.
17. **The Restoration of the River Glaven at Hunworth;** landscape and watercourse improvements undertaken by the landowner which have significantly improved the quality and biodiversity of this North Norfolk river.
18. **The Restoration of Cavick House, Wymondham;** a comprehensive, extensive and painstaking restoration of a neglected Grade I Queen Anne house and ha-ha.
