

## CPRE Norfolk Awards

The CPRE Norfolk Awards scheme was founded in 1979 to recognise and promote building, landscape and education projects which enhance the Norfolk countryside. In total, almost 500 projects have been awarded to date, ranging from large scale restorations to modest extensions. In the list below you will also find landscape improvement projects that have involved the effort of community groups and volunteers, and we also give recognition to a new generation of modern homes and buildings that are sympathetic to the landscape yet have their own unique identity. CPRE Norfolk Awards have also been given to education projects which widen understanding and appreciation of the countryside.

It is a wide-ranging and fascinating list, where you will find boathouses, orchards, churches, wildlife walks, warrens, signal boxes, orangeries, vineries and much, much more....

### The Winning Projects
